- 1,1% from GDP 2018
- 1% from GDP 2019

"Organization of the production of baby food"

Goal :

Construction of the first enterprise in Uzbekistan for baby food in the form of fruit and vegetable puree production

Tasks :

- ✦ To organize the production of baby food in high demand in the markets;
- ✦ Saturate the market with high-quality products of own production;
- ✦ Increased product exports

Effects :

Creation of a new domestic brand;
Attracting specialists and creating new jobs;
Production of modern exportable products;

Market Position:

The market for baby food in Uzbekistan is constantly growing (more than 3 million children under the age of 4). The complete absence of domestic manufacturers of baby food in the Republic of Uzbekistan. 100% of the proposed product segment is imported from the CIS and Europe.

S

The resources of the region make it possible to create a cluster for the production of baby food, while expanding the range of products and reducing its cost. Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan and Afghanistan do not produce this type of product, which allows them to be considered as sales markets. Agriculture in the region is able to provide all the necessary raw materials for production.

W

The dependence of product quality on the properties of raw materials.

O

Great need in the domestic and global market.

T

Competition with global manufacturers.
